Total Rounds	3	Total Raised	\$247.04M
Latest Valuation	\$1276.84M		

Sector Benchmark

This startup's average funding round (\$82.35M) compares to a sector average of \$12.27M across all Artificial Intelligence rounds in the platform.

Historical success benchmark: 44.1% of startups in a comparable sector (AI, n=14,074) reached a successful outcome (Acquisition or IPO) in a separate labeled study.

Note: This benchmark reflects sector-level patterns from a separate labeled dataset, not a direct prediction for this specific startup, since the two data sources do not share a common feature space.
