Sector Benchmark

This startup's average funding round (\$100.98M) compares to a sector average of \$15.20M across all Healthcare & Biotech rounds in the platform.

Historical success benchmark: 44.8% of startups in a comparable sector (Health, n=14,357) reached a successful outcome (Acquisition or IPO) in a separate labeled study.

Note: This benchmark reflects sector-level patterns from a separate labeled dataset, not a direct prediction for this specific startup, since the two data sources do not share a common feature space.
